Search Blocker Check to turn on. (Uncheck to turn off.)

This new feature, available only to premium members, allows you to control who will find you in search results. Based on the settings you select below, only members that match your criteria will see you in their search results.

Examples:

1. You are a gay man and want messages only from other gay men. So you check MALE and GAY only.
2. You are in NY and only want local members to find you. So you select NY, NJ, CT and PA only.

You will always be able to search ALL members regardless of your Search Blocker settings.

Be very careful with your choices! Your settings on this page will make you visible or **POSSIBLE** in search results to large groups of members.

Select your Search Blocker settings below.

Check the options you want members to have to be able to see you in their search results. Members must meet ALL the criteria you select for you to appear in their search results.
